Subject: Re: Revised SMBNEP plastics reduction proposal for Tom

I read this through and barring a few typos it's almost there. I hope to meet with Grace this AM and discuss the few remaining items.

Thanks All!

Subject: Revised SMBNEP plastics reduction proposal for Tom

Hello all,

Erica and I discussed all the changes in the revised proposal and has approved the attached, scaled down version. In short:

- Deleted the additional characterization of trash found adjacent to our 2 study restaurants. This will not affect the task of "data analysis" to find high trash generation areas and to demonstrate impact of bans, because we plan to use city volumetric trash data for this analysis. This additional characterization was another way we were going to examine the impact of converting 2 restaurants on the trash found right around the 2 restaurants. But, it may have been inconclusive due to the difficulty of sourcing the trash found. With the reduced budget, it would be even more unlikely for us to do so.

- Convert two restaurants instead of three, which will result in two case studies/videos, not three.

Tom, we would like your approval of these changes before Erica sends to Rommel. We know you are busy with the Governing Board meeting, so Erica asked Rommel if we can submit next Monday. Let me know if you have any questions.

Thank you,

Grace Lee
Director of Outreach Programs
